Notice of Electronic Filings

Previously any recipient of a Notice of Electronic Filing (NEF) was allowed one view of the referenced documents without incurring PACER charges. Now only participants in the case (parties and attorneys) are provided a view at no charge while others accrue PACER charges. The NEFs received from cases listed in the "Send Notices for these Additional Cases" section of the Email Information Screen will accrue PACER charges. It is the attorney's responsibility to remove cases in which he/she is not activity involved. Otherwise, he/she will continue to receive notices and will accrue charges for accessing such. Here is how:

Log into CM/ECF using an ECF filer login.
 Select the Utilities menu item.
 Select "Maintain Your Account."
 Select "Email Information."
 Remove the check mark for "Send notices for these additional cases."

Client Code Feature

PACER customers now have the option to require the use of a client code at login. In addition, customers have the option to specify the format of that client code. Client codes are text fields provided for tracking charges. To activate this new feature, log into the Account Information section of the PACER Service Center's website at <http://pacer.psc.uscourts.gov>. Click on "Set PACER Preferences." After the preferences have been set, the system will prompt customers for a client code if one is not entered at login. If it is not in the proper format, the system will provide a hint as to what the proper format should be. This feature works in all bankruptcy court sites and those district court sites that have upgraded to version CM/ECF 3.0. It should be noted that if a customer logs into PACER at a site that does not support the new functionality, that customer will be able to access any other PACER site using the Universal Login functionality with whatever client code was entered at the older site regardless of whether or not it meets the format set in the preferences option. This problem will diminish as all courts upgrade to the newest versions of CM/ECF.

The client code feature is intended as a means to help customers account for PACER charges. The PACER Service Center does not recommend setting the client code preference as a means to restrict usage on an account. The PACER Service Center recommends changing the password to maintain proper control of usage.

EPA Fee Schedule

The Judicial Conference amended the Electronic Public Access (EPA) fee schedule at its March 14, 2006 session. The amendments include a new fee and an increase to an existing fee for searches by the PACER Service Center. The new fee of \$.50 per page was established to recover the costs of paper copies produced by the PACER Service Center. The fee applies to any record pertaining to a PACER account or instructional document that is remotely available through electronic access. The existing fee of \$20 per court record obtained by the PACER Service Center staff was increased to \$26 by the Conference. The fees were effective July 1, 2006.
